CG 295mm

We wish you many happy flying hours with the Puddle Star.

Your RC Factory team

This diagram shows a top-down line drawing of the fuselage of the Puddle Star RC airplane. A center of gravity (CG) marker, represented by a black and white checkered circle, is located on the upper fuselage. A horizontal dimension line with arrows at both ends indicates a distance of 295mm from the CG marker to the rear fuselage. The drawing is enclosed in a rounded rectangular border.
